introduction

H&T Technology offers services include:

- *Consulting and design*
- *Supply and installation*
- *Construction*

for swimming pools, spas and ponds in Vietnam, Cambodia and Myanmar.

We provide the tailor-made solution for each project, for every using purpose and special architectural demand.

We are working in cooperation with investors, project developers, architects and other contractors on site to ensure that all projects are worked out with the highest quality and value for money.

Quality makes the difference

SCOPE OF WORK

CONSULTING & DESIGN

We are working in cooperation with investors, project developers, architects and other contractors on site to ensure that all architectural demands and using purposes are realized with the highest quality and value for money.

SUPPLY AND INSTALLATION

Our experts and experienced engineers always implement the latest technology for pool and spa.

CONSTRUCTION

The construction of the pool is supervised and performed by a trained and experienced staff. We are using only the best products available.

SCOPE OF WORK

AFTER-SALES

Regular swimming pool maintenance and servicing are essential, both to protect your investment and enhance your enjoyment. Our services also include training and instruction for your pool staff.

RENOVATION

Whether your swimming pool requires new tiles, better water quality, or even a total renovation, our expert technicians and construction team are capable of renovating and make your existing pool functional, eye-catching and fun.

THE TAILOR-MADE SOLUTION
FOR YOUR SWIMMING POOL OR SPA
FOR EVERY SPECIAL ARCHITECTURAL DEMAND AND
USING PURPOSE.
